

Join in the 3rd International Student Design Biennial!

The Technical Museum in Brno invites applications to the 3rd International Biennial of Student Design 2018.

The exhibition of student works will be held from 26 June to 16 September 2018 in the Technical Museum in Brno.

The aim of the project is to present the best of what has emerged in the field of student design over the last three years across different schools, and at the same time to confront student work from different countries.

The biennial is designed for all students of design and related disciplines. Recent graduates can also take part. The only condition is that the work was created during the course of study, however, it must not be older than three years.

Selected works will be exhibited at the student design show. The best works will be awarded by an expert jury or business representatives.

For additional information, participation rules and application form, see <http://design-s.eu/>, facebook design-s. For further questions, please write to info@design-s.eu.

Registration deadline: March 16, 2018.
